DETAILED ACTION

And

EXAMINER'S REASONS FOR ALLOWANCE

1. Claims 1-6 and 8-26 are allowed.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: While *Beauchamp* (US Patent 6,434,441) discloses creating a master model, and translating a master model into an engineering analysis model for use with an engineering analysis program and then executing said engineering analysis program to generate a performance estimate from said engineering analysis model, *Beauchamp* taken alone or in combination with the prior art of record fails to disclose a method for automatically analyzing an article of manufacture, including:

(Claim 1, 11, 21 & 22) "creating a context model from said master model and said context model specification",

in combination with the remaining elements and features of the claimed invention. It is for these reasons that the applicants' invention defines over the prior art or record.

Further, it is noted by the Examiner that *Rebello* (US Patent 6,856,842) fails to disclose the following limitation(s) as expressly claimed in applicants' current claim language,

(Claim 1, 11, 21 & 22) "executing said engineering analysis program to generate a performance estimate from said engineering analysis model".

- 2.1 Dependent claims 2-6, 8-10, 12-20 and 23-26 are allowed for at least the reason that they are dependent from an allowed base claim.

Art Unit: 2123

2.2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
